

## THE WEDDING LILLY SUIT.

Continued from First Page.

I went up to Palmer's office, and there I saw Mr. Barney. He suggested to you to see Mr. Andrews. I do not think he did; I had no recollection of it. I will state that I understood Mr. Barney to say it was customary to make arrangements, and they were done in that way. I think he did not approve of the plan himself, but the party seemed to require it, and he submitted it. I think I inquired how soon the money could be received, and he said in a few days.

Q. Can you give the dates of those checks? A. I made an account at the time, and I see that the last check was received, I think, on the 7th of January, and the \$5,000 check appears with date of deposit, which is under the date of Dec. 2; the whole sum was received after the election (Dec. 2). I think there was a balance due me of some \$200, and I sent my check for the amount, which I had expended over what I had received, after that, on the 7th of January, Barney sent me the further check of \$1,000, which I paid over to Odyke.

Q. Did you see Barney and Odyke together after the election when this matter was spoken of? A. I saw him after the election, but I think I never saw him in the presence of Odyke in regard to anything that passed between him and Odyke on the subject of the short contract.

I talked with Odyke frequently about the amount to be received from Barney about the time of the election, and I think I talked with him before he went there; he had not told me anything about the amount to be received from the Custom-house, but spoke of collecting money from the employes, after my interview with Barney I communicated the result of it to Odyke, and told him the amount to be expected.

Odyke said that was all right, and we have any conversation with Odyke in regard to the collection being less than he stated.

A. I think I did, after the settlement of this account; there was not much said except that he paid the difference, whatever it was, in the amount expended, he expressed the same opinion that I did, that I did not get as much from Barney as he had promised; he thought the same thing, and expressed his dissatisfaction at Barney's having promised \$10,000, \$12,000, and his having received me only \$1,000.

Q. Subsequently did you have any conversation with Odyke in regard to the collection being less than he stated?

A. I think I did, after the settlement of this account; there was not much said except that he paid the difference, whatever it was, in the amount expended, he expressed the same opinion that I did, that I did not get as much from Barney as he had promised; he thought the same thing, and expressed his dissatisfaction at Barney's having promised \$10,000, \$12,000, and his having received me only \$1,000.

Q. Do you know that Odyke spent \$3,000? A. I do not understand from him during various conversations \$3,000 including what was collected from all sources; I saw him pay money out of his own pocket; I can't say how much he paid out of his own pocket, but I presume it was the difference between what I collected and what he expended.

Re-direct.—The money I received was paid out to the various ward organizations through vouchers; I knew that Odyke paid money to the same for printing, posting, &c.

Re-cross—I saw the money paid by him in the Committee of Safety to various persons representing the different wards, as they said.

The Court here adjourned till Tuesday, January 3, 1865, at 10 o'clock.

A juror stated that he expected to have a blow-out and would be unfit to present on Tuesday; he wanted another day. (Laughter.)

The Court.—Will you have to postpone your blow-out till the following week.
